Our functional and technical experts help organizations to digitalize manual process to make them more efficient, standardize & effective

Audit Platform

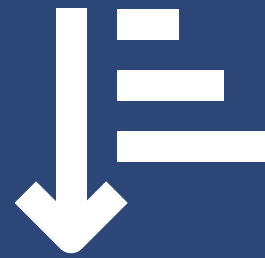

GEMBA WALK

Capture your observations while you take a walk

LPA

Confirm process adherence by different level of audits

5S

Make principle adherence on the click

EHS

Immediate reporting of health and safety concerns

Unique comprehensive audit platform for expediting entire audit process with better efficiency, productivity and results.

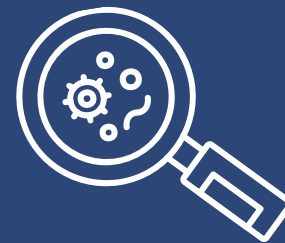

QUALITY

Achieve quality that make your customer smile

SUPPLIER

Ensure supplier quality of next level

INSPECTION

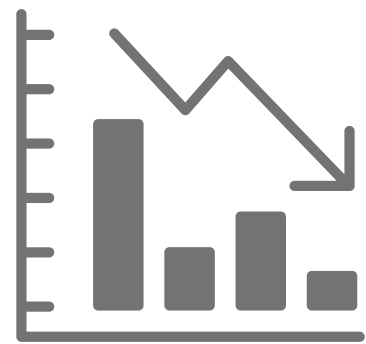

Report abnormality/concern on the spot

HR

Make HR processes compliant

Manual Audit Challenges

LOSS

in terms of efforts,
productivity, quality
and safety

SLOWER

manual process
slows down entire
process of
auditing and NC
closing

STRUGGLE

huge struggle in
tracking,
consolidating and
storing data

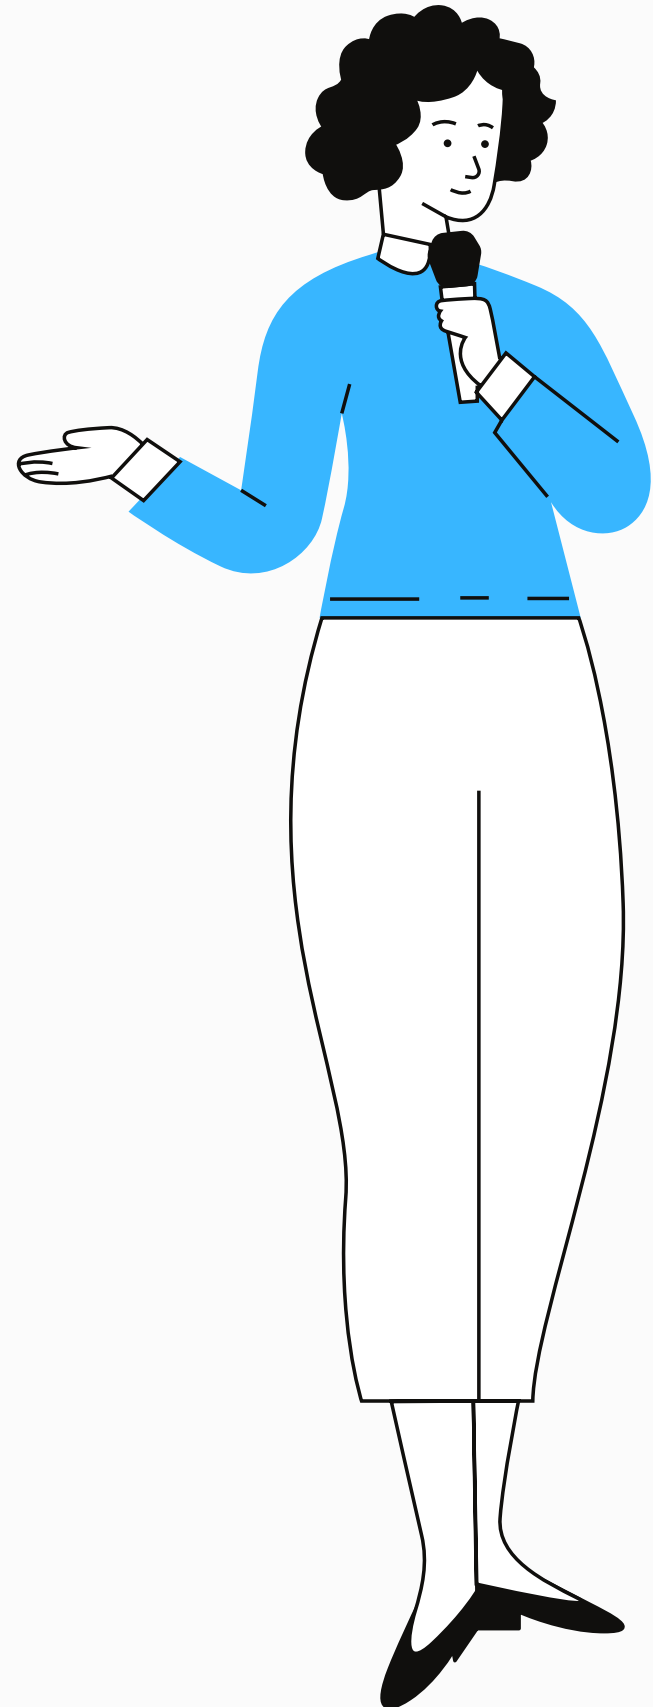

ERRORPRONE

human errors
tend to erroneous
audits

IMPACT

lack of proactive
and correct
decisions due to
non availability of
live data
monitoring

1

Manual burden of **scheduling** and **tracking audits**

2

No clues about **audit coverage** & **completion**

3

Issue repetition due to **lack** of **traceability**

4

Absence of verification doesn't guarantee correctness of NC closure

5

Waste of time & money in **non productive activities** like meetings, follow ups, paper work & data consolidation

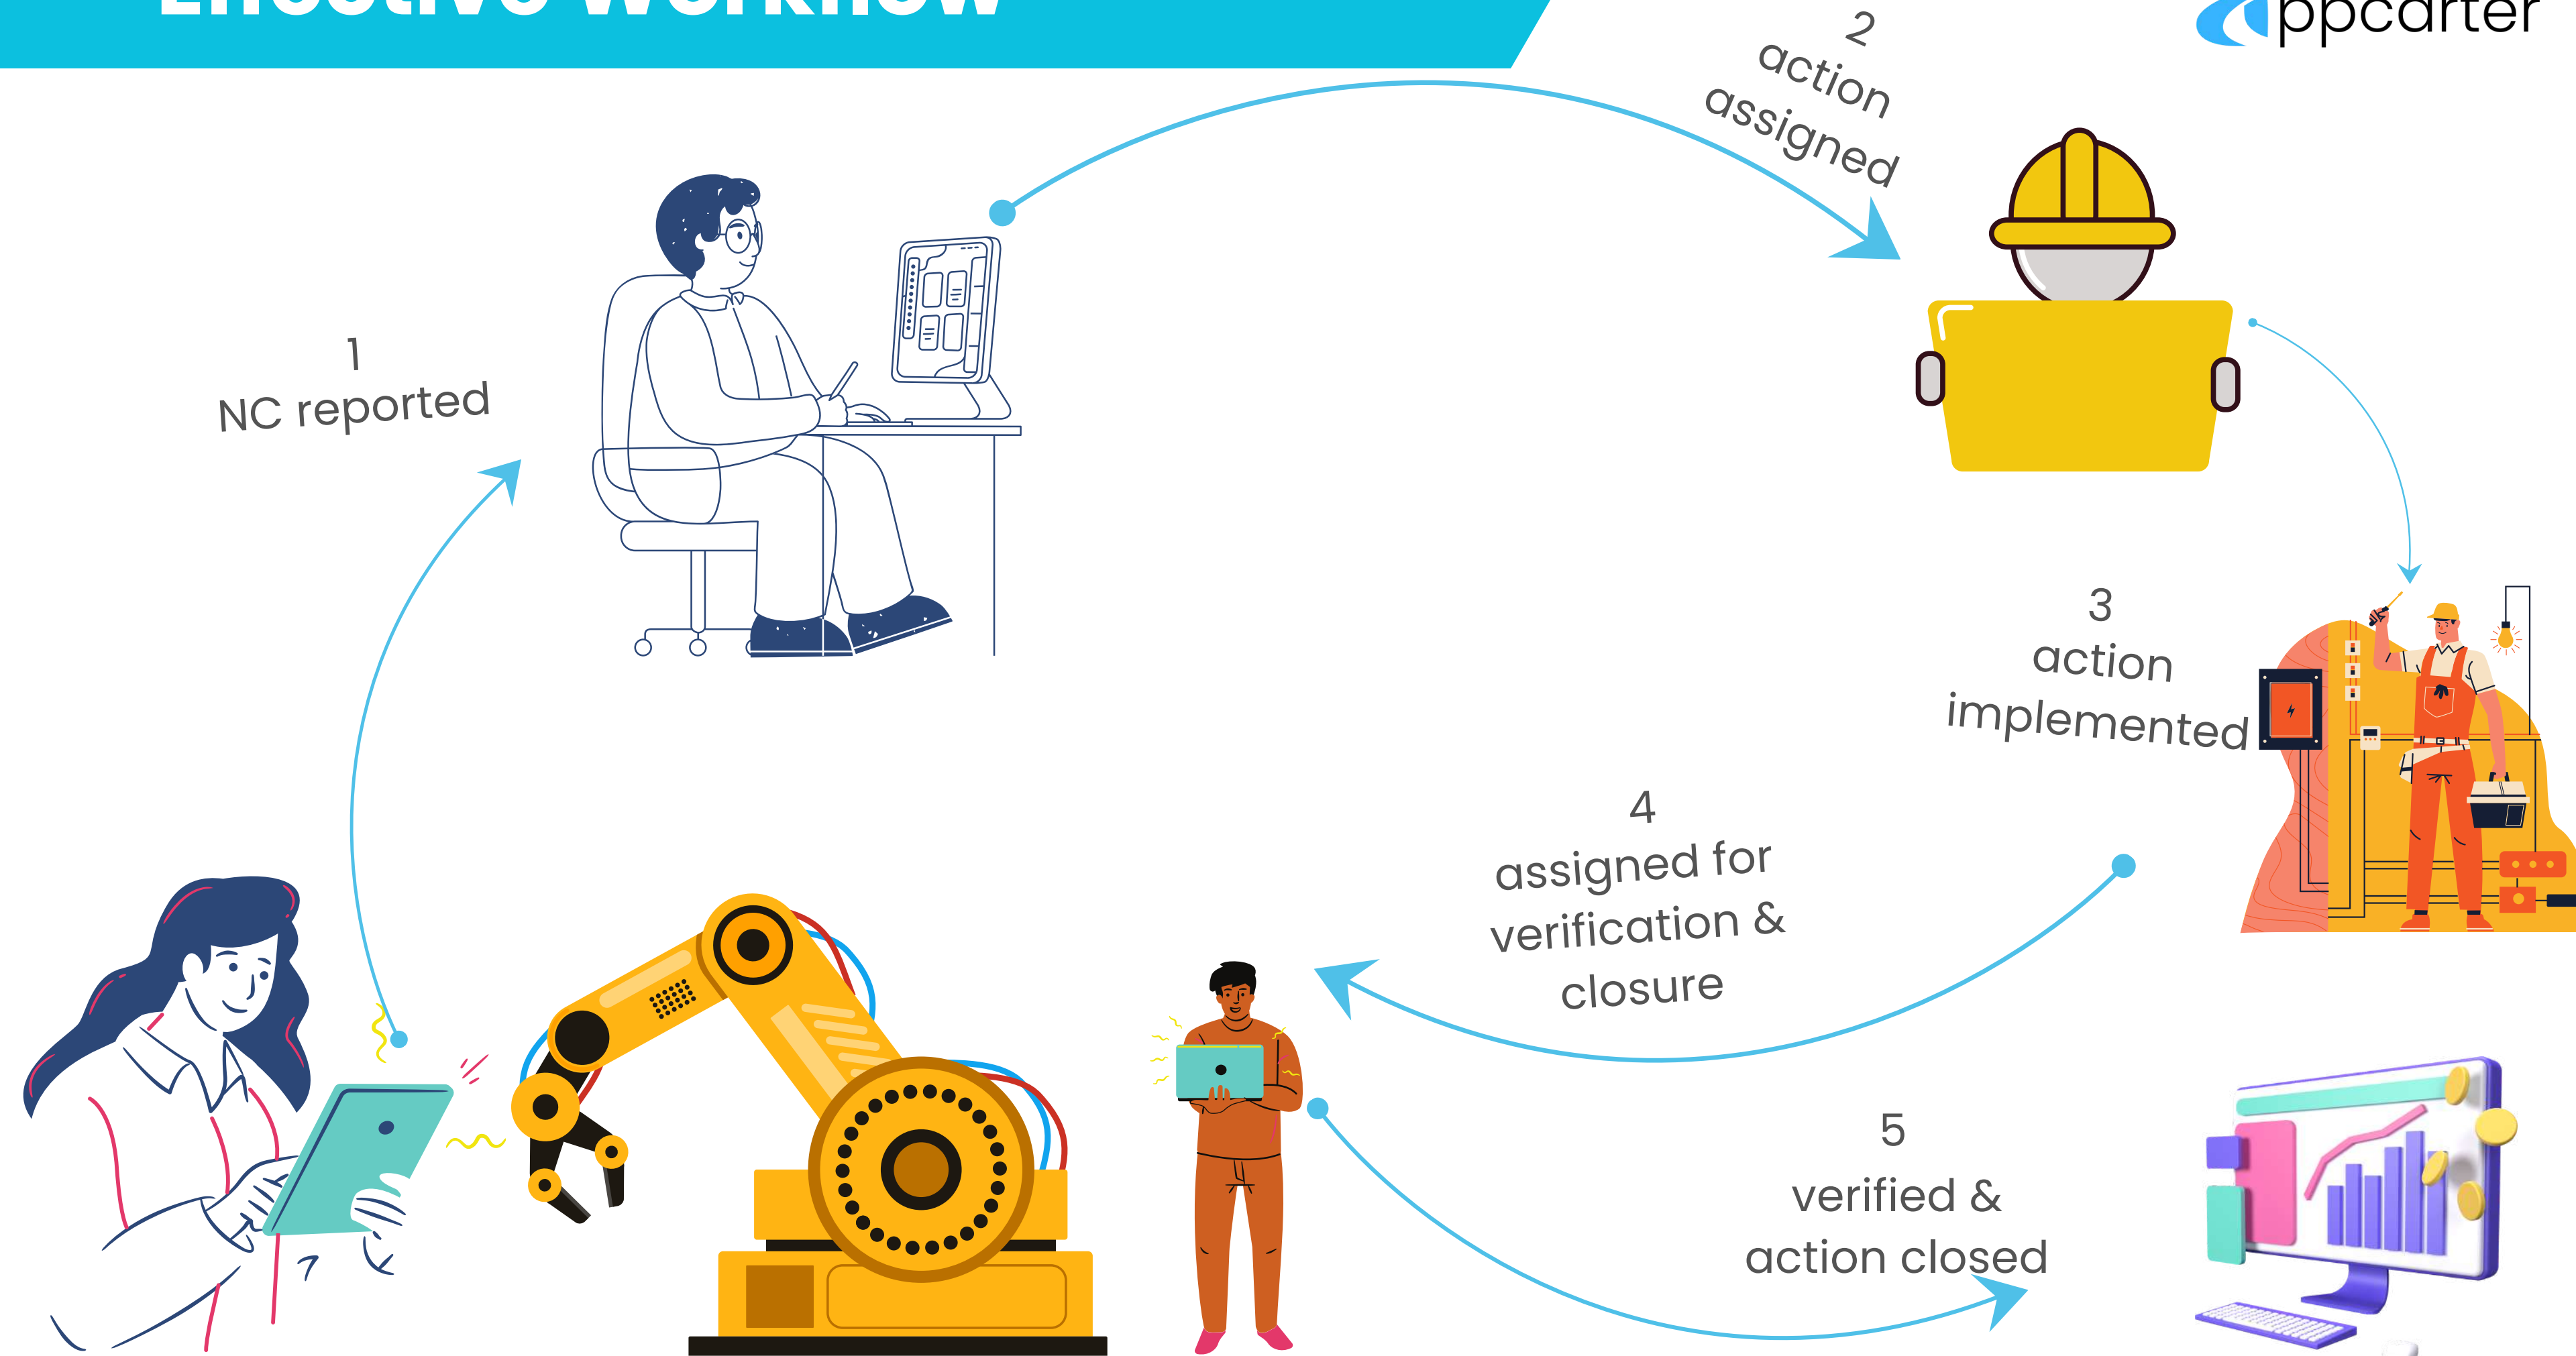

6

No analysis highlighting **risk & problematic areas**

7

Lack of dashboard highlighting **critical parameters** that needs immediate attention

Effective Workflow

Key Features

AUTO SCHEDULING

auto scheduling makes hassle free scheduling with 100 % coverage

SELFIE TO UNLOCK

selfie to start the audit that brings more transparency in the process

CHECKSHEET BANK

ready to use industry standard templates

USER FRIENDLY

user friendly mobile app and web app makes entire audit process quick and easy

Key Features

LIVE ANALYTICS

for right and timely decisions

TRACEABILITY MATRIX

complete traceability of root cause for NCs

NC REPORTING

spot on reporting of NCs

ALERTS AND REMINDERS

reminders and alerts for quick turn around of scheduled and assigned tasks

COST SAVING

by eliminating paper work, non productive tasks & through preventive actions

100 % RESULTS

in quality, safety, productivity and other areas

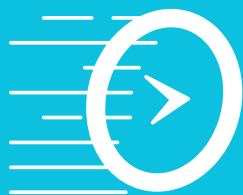

100 % COMPLIANCE

for external audits due to in time preventive actions and closure of internal audit NCs

IMMEDIATE ROI

low investment but high gain results in quick returns on investment

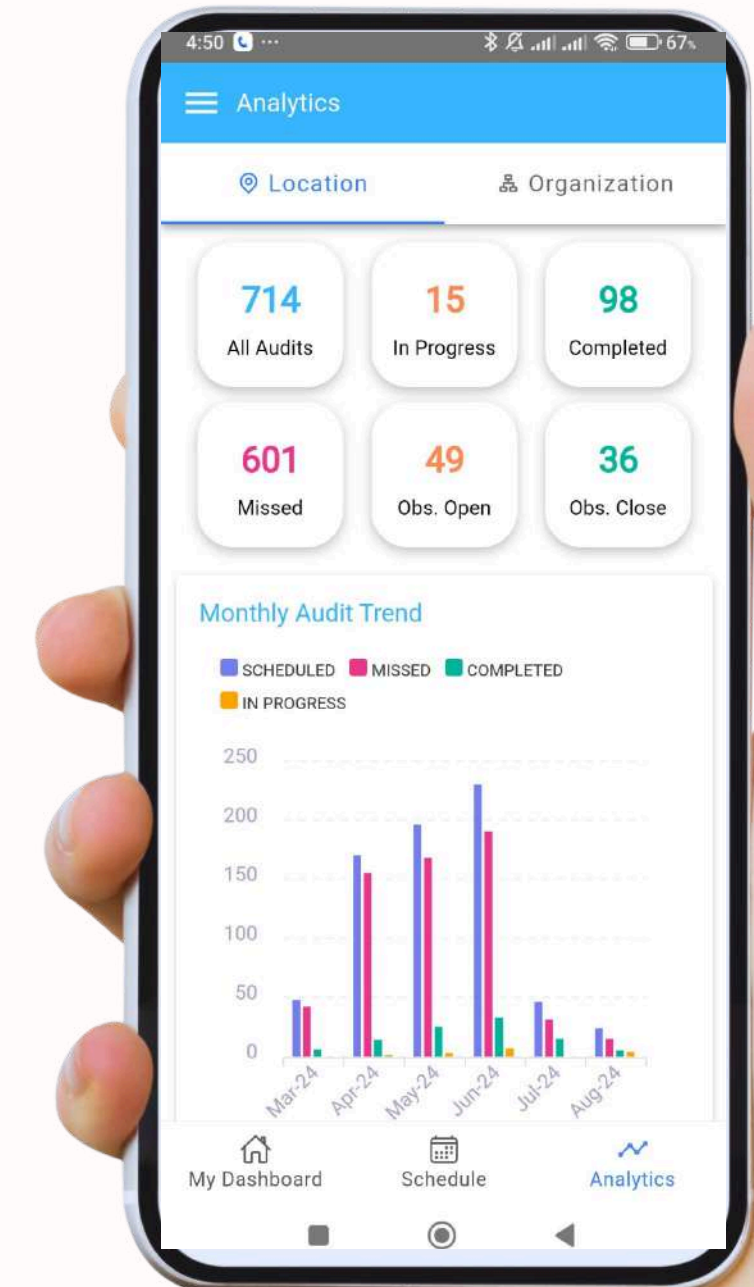

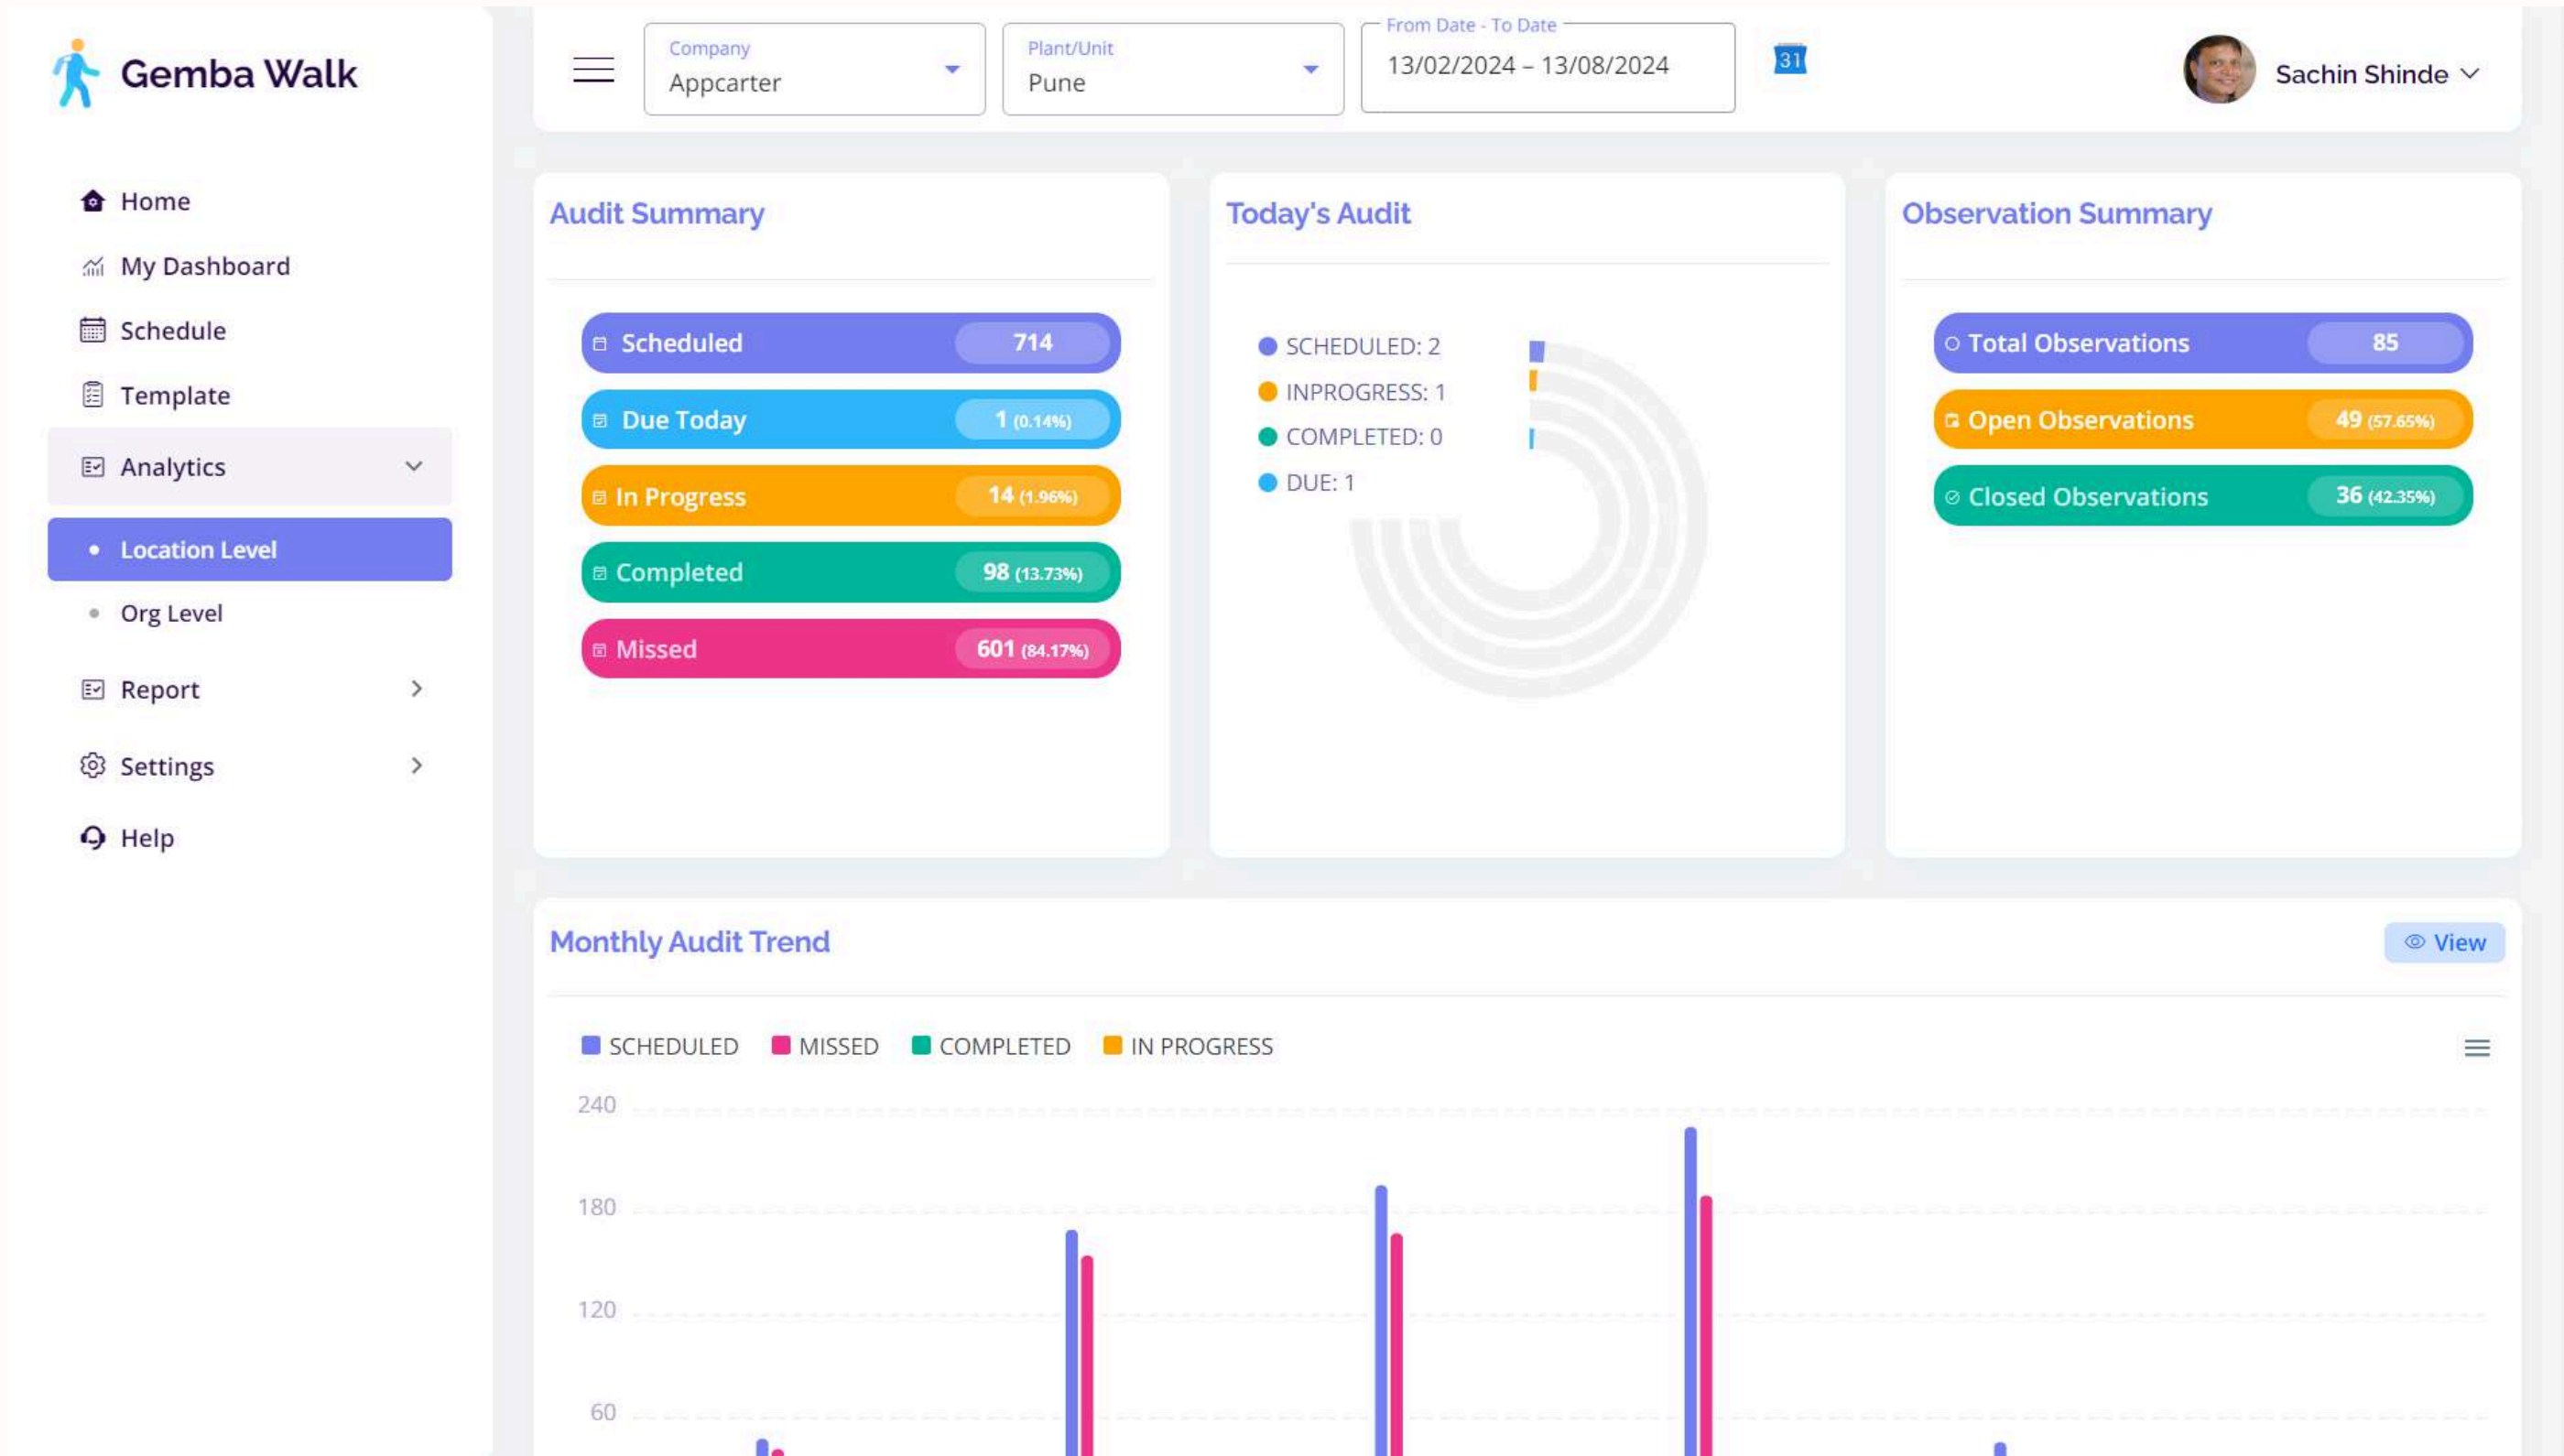

QUICK DECISIONS

due to **LIVE** analytics and dashboards

ROI
